

# Setting up Varicam only shooting on P2 Express card

Do a factory reset of the Varicam 35LT.

Menu>System Settings>Initialize>Load Factory Data>System Restart>Yes

Menu>System Settings>System Mode>Frequency = change to 25.00p. Push “Set” to Exit.

Turn the camera off and then back on again.

Menu should now display 25fps.

Press the button above SHUTTER and change it from degrees to secs. Push the dial to confirm.

## Focus Assist.

Menu>Output Settings>VF SDI Focus Assist>Focus In Colour SW> ON

Menu>System Settings>User Switches>User1>In Colour FA

## Format Card

Menu>System Settings>Cards/Media>Format Media>Main Slot>Yes
